Summary

Full-stack developer with expertise in building secure, scalable applications and Proven ability of improving efficiency and supporting 100+ concurrent users.

Education

VIT-AP University <i>Bachelor of Technology in Electronics & Communication</i>	2022 – 2026 CGPA: 9.27
SriChaitanya Junior College <i>Class XI & XII</i>	2020 – 2022 97.5%
Ratnam High School <i>Class X</i>	2019 – 2020 99%

Projects

Promptify | *React.js, Node.js, Express.js, PostgreSQL, Gemini AI* [github.com/promptify](https://github.com/udanth/promptify)

- Designed and built an AI-powered SaaS platform that helps users generate content and process images, reducing manual editing time by 50%.
- Integrated Google Gemini API and ClipDrop for real-time content + image automation, supported PDF parsing for resume analysis.
- Scaled backend APIs to handle concurrent requests with less than 200ms response time under test load.
- Implemented role-based authentication with Clerk and enforced premium usage limits, enabling secure onboarding of 15+ active users in the first release.

Clinix | *React.js, Node.js, Express.js, MongoDB, Razorpay* [github.com/clinix](https://github.com/udanth/clinix)

- Built a role-based doctor appointment platform supporting patients, doctors, and admin workflows, streamlining consultation booking.
- Secured the platform with JWT-based authentication and bcrypt, ensuring strict role separation and zero unauthorized access.
- Integrated Razorpay for payments and Cloudinary for medical document uploads, enabling patients to complete bookings in under 2 minutes

ShopX | *React.js, Node.js, Express.js, MongoDB, Razorpay* [github.com/shop-x](https://github.com/udanth/shop-x)

- Developed a full-stack e-commerce platform with cart persistence, product filtering, and complete order life-cycle management.
- Built an admin dashboard to streamline inventory and order tracking, reducing manual management time by 40%.
- Integrated Razorpay for secure, seamless checkout; stress-tested APIs to support 100+ concurrent transactions with 99.9% uptime.

Technical Skills

Languages: TypeScript, Java, JavaScript, SQL
Technologies/Frameworks: React, Node.js, Express, Next.js, Redux Toolkit
Databases: PostgreSQL, MongoDB, Prisma
Developer Tools: Git, GitHub, Vercel, VS Code

Certifications / Achievements

- Received a Certificate of Merit for academic performance at VIT-AP University. [View Certificate](#)
- MERN Stack Development Certificate - Apna College.
- Solved 250+ algorithmic problems on Leetcode. [View Profile](#)
